## MEGAsys OV Intergrades Technical Notes TN-207020107 v1.0

2007/03/21 Evertech Electronics Ltd.

O.V. Connection Service <系統圖 1>

## MEGAsys GUI System – Access Control

1) 安裝 OV Client 到 MEGAsys GUI 上, 用 ObjectVideo Management tool 打開 Deamon service 直接連到 OV 的 Device 上.

ection Dipiect/video Daemon Service Stopped Start Service Start Service ection Italiation Key/b4ad6873b2244573673tbc/2 rver Addrew 10.22:1 193 Port/8076 OV Server IP and Port

OV Server IP and Port	

2) 在 MEGAsys 按接連到 OV 上如下图:

💐 EagleM	lage					
Connect		PlayBack	Camera	Clear	onterlock:	Display Target Markup 🔲 Display Event Markup
Event	Time Stamp		Camera		Event Description	
1) Pres	is connect with De	eamon			2) If need interlo	lock somethings, it suuport MEGAsys all Macro!
1						
•						
Syst	em Alarm Log	System E	vents	DVR Onlin	e Satus 🛛 📴 Tree Acce	EagleMage

3) 如需要在 OV 發生報警時要連动 MEGAsys 任何图像,可直接使用 MEGAsys 內所有 MACRO 宏程序.

如呼叫Visowave的實時圖像:

VWC {ip:port}

MEGAsys 其他 MACRO 宏程序請參考 MACRO 說明書:

按 Playback 可看到系统記錄:

## Hints for Using the Alert SDK

- 1) From a command prompt, cd into the Program Files\ObjectVideo\Alert SDK\bin directory.
- 2) Type:

c:\Windows\Microsoft.NET\Framework\v1.1.4322\regasm\ClientSDKXML.dll/tlb:ClientSDKXML.tlb

The Alert SDK-enabled applications must include all files from the

## C:\Program Files\ObjectVideo\Client SDK\bin\ folder

in the same directory as their compiled .exe file (see the sample code for examples). To use the System Simulator, you also need to copy the System Simulator DLL to that directory. The System Simulator DLL is located in

C:\ProgramFiles\ObjectVideo\Client SDK\System Simulator\ClientSDKSystemSimulator.dll.
